

Module International Skills (6. Semester)

Module International skills

Starting with the study year 2022/23, the acquisition of international and intercultural competencies is part of the curriculum. On the basis of [11 measures](#) at-hand, you will complete internationalization activities during the course of your studies, which are assigned ECTS.

In total, 5 ECTS must be acquired, which become effective in the 6th semester. The module “International skills” is completed with the assessment "Successfully participated." Please select the measures that apply to you and schedule the appropriate semester. Once the 5 ECTS have been achieved, the degree program will review the documents you have uploaded.

Tool in CIS under My CIS > Module International Skills

Step 1: Plan Measure

At the bottom left of CIS, you will find "Add measure." Select one of the 11 measures from the drop-down menu, enter the planned semester and, if available, add initial information in the notes. Click "Add."

An Example:

Measure: Participation in Summer/Winter Schools

Note: Summer School: Information technology (Brno University of Technology)

Add

Step 2: Have plan accepted

Once you have added the measure, it should show up under Measures planned (1). The study program will check your plan and accept it (2. Plan accepted).

You can delete a measure at any time, but not once the plan has been rejected (for tracking).

Should your plan be rejected, you can add new measures anytime.

	▼ ECTS - confirmed						
	Internship abroad	5.00	WS2023	BMW München			

Step 3: Carry out measure

As soon as your planning has been accepted, the button for uploading the proof (e.g. confirmation of participation in the Summer School) is activated (3). The study program will check the upload and confirm the ECTS (4).
